Important safety information

- Please read this instruction manual carefully and completely before using the device.
- Make this instruction manual easily accessible to all users at all times. Always include this instruction manual when passing the device on to third parties.
- Always keep the device dry and do not expose it to extreme temperatures.

Safety instructions for Bluetooth devices

- The radio waves of a **Bluetooth**® device can impair the operation of electronic and medical devices.
- Do not use the device in medical facilities and aircraft, and close to automatic doors, automatic fire alarms or other automatically controlled devices.
- Keep this device at least 20 cm from pacemakers. Radio waves can impair the operation of pacemakers.

Intended use

Intended use of the device includes:

- having read this instruction manual, especially the chapter "Important safety information" on page 1,
- using the device within the operating conditions and limitations described in this instruction manual.

"Improper use" means using the device other than as described in this instruction manual, or under operating conditions which differ from those described herein.

BTD 300i

If your iPod/iPhone does not support the **Bluetooth** stereo audio profile (A2DP) or the **Bluetooth** audio/ video remote control profile (AVRCP), you can use the BTD 300i adapter. The BTD 300i allows you to extend the functionality of your iPod/iPhone by adding support for these **Bluetooth** profiles.

Bluetooth wireless technology provides an interface for wireless communication between your iPod/ iPhone and other **Bluetooth** enabled devices.

Delivery includes

1 BTD 300i adapter

1 instruction manual

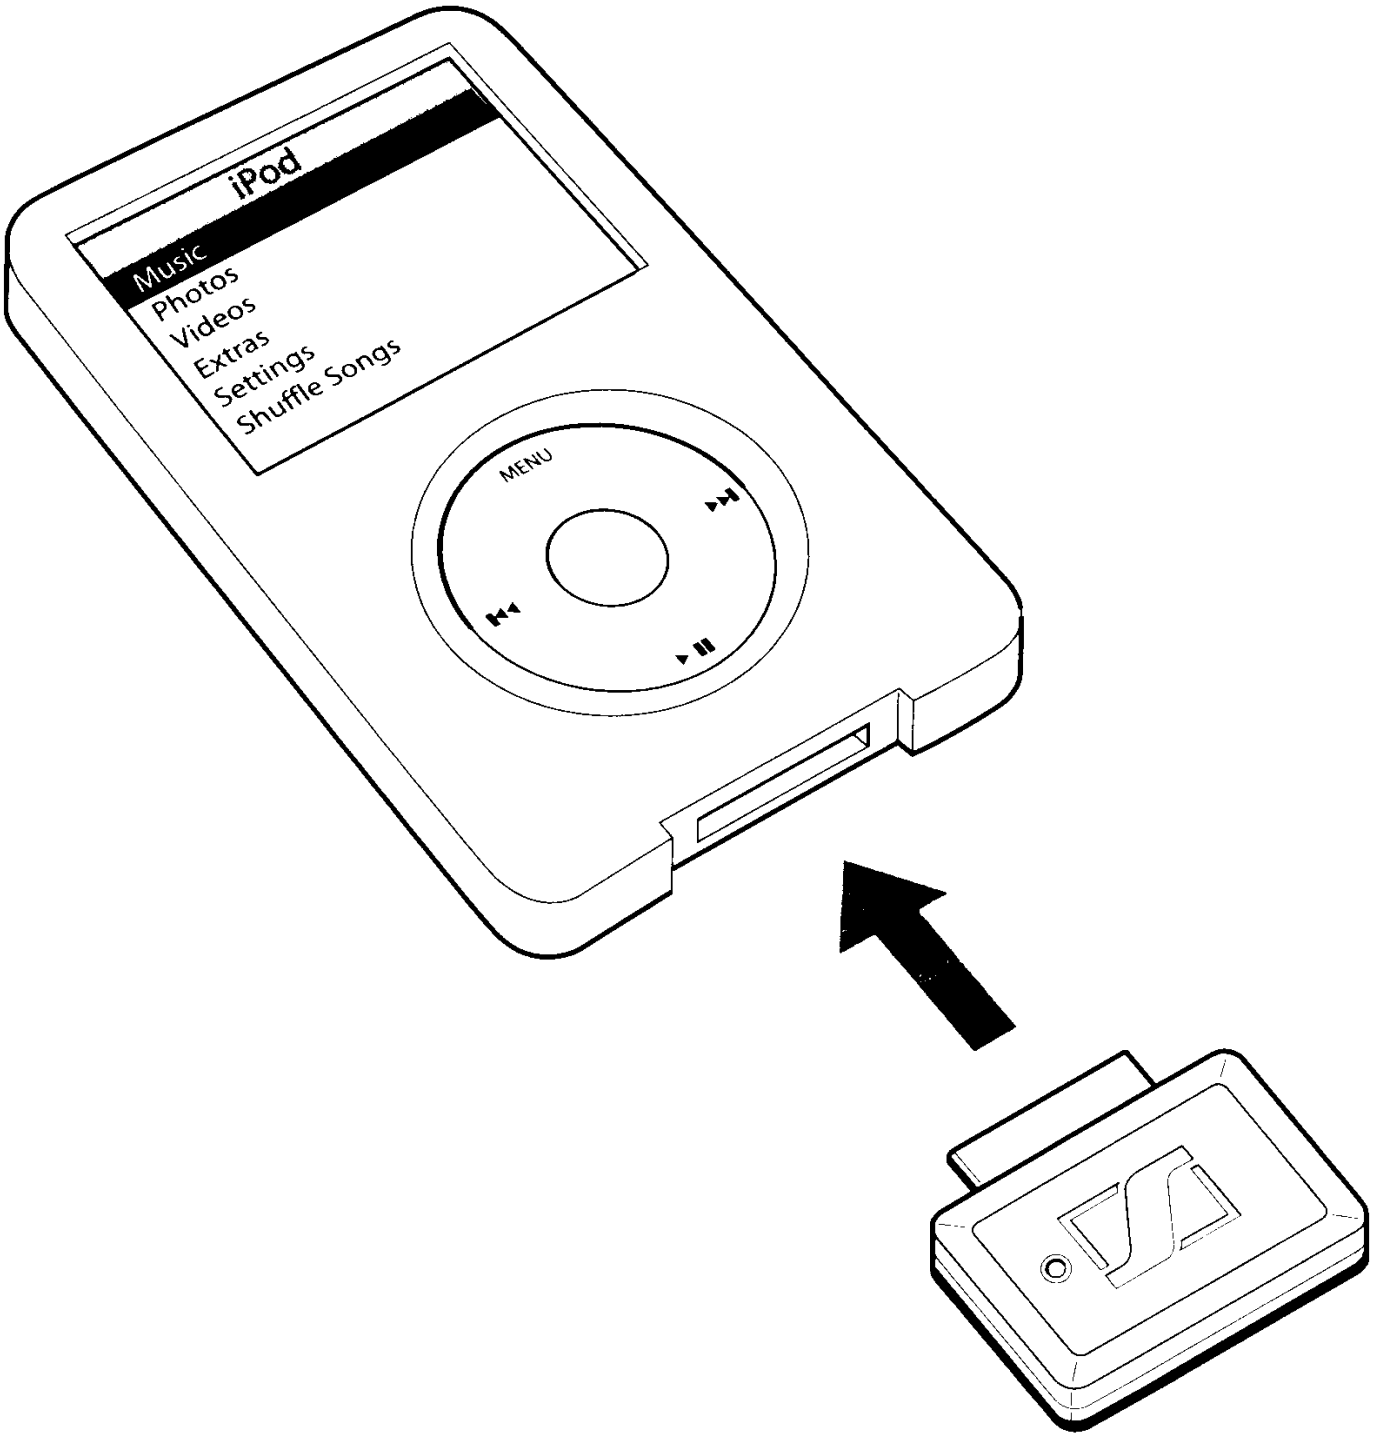
iPod/iPhone generations

The BTD 300i is only compatible with the following iPods/iPhones:

Works with
iPhone
iPhone 3G

Made for
iPod touch (2nd generation)
iPod touch (1st generation)
iPod nano (4th generation)
iPod nano (3rd generation)
iPod nano (2nd generation)
iPod nano (1st generation)
iPod mini (2nd generation)
iPod mini (1st generation)
iPod classic
iPod with video

Connecting the BTD 300i



Pairing the BTD 300i (I)

▶ Make sure that your device is in pairing mode (see the instruction manual of your headphones or loudspeaker system).

If your device is already paired with several **Bluetooth** devices, this process can take up to 30 seconds.

Memory function

The BTD 300i can save the connection profiles of up to 5 **Bluetooth** devices with which it has been paired. After switch-on, it automatically connects to one of these devices.

If you pair the BTD 300i with a sixth audio source, the saved connection profile of the first **Bluetooth** device will be overwritten.

Shuffle Songs
MENU

Pairing the BTD 300i (II)

If the BTD 300i does not detect a **Bluetooth** device, it switches off after 5 minutes.

▶ Reconnect the BTD 300i in order to pair it with a new **Bluetooth** device.

Specifications

Input voltage	3.3 V ⎓
Input current	max. 0.06 A

Bluetooth

Bluetooth®	version 2.0 + EDR
Range	up to 10 m
Transmission frequency	2.4 GHz
Protocols	A2DP, AVRCP
Codecs	SBC, apt-X®

Manufacturer Declarations

Sennheiser electronic GmbH & Co. KG gives a warranty of 24 months on this product. For the current warranty conditions, please visit our web site at www.sennheiser.com or contact your Sennheiser partner.

Declaration of Conformity

This device complies with the basic requirements and other relevant provisions of the following directives:

- R&TTE Directive (1999/5/EC)
- RoHS Directive (2002/95/EC)
- WEEE Directive (2002/96/EC)

The declaration is available at www.sennheiser.com. Before putting the device into operation, please observe the respective country-specific regulations!

In compliance with:

USA	FCC ID: DMOBTD300I	
Canada	IC: 2099A-BTD300I	
Europe	CE 0560	

Bluetooth

QD ID	B015372

apt-X® is a registered trademark of Audio Processing Technology Ltd.

iPhone and iPod are registered trademarks of Apple Inc. in the U.S. and other countries.

"Made for iPod" means that an electronic accessory has been designed to connect specifically to iPod and has been certified by the developer to meet Apple performance standards.

"Works with iPhone" means that an electronic accessory has been designed to connect specifically to iPhone and has been certified by the developer to meet Apple performance standards.

Apple is not responsible for the operation of this device or its compliance with safety and regulatory standards.

Statements regarding FCC and Industry Canada

This device complies with Part 15 of the FCC Rules and with RSS-210 of Industry Canada. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This class B digital apparatus complies with the Canadian ICES-003.

Changes or modifications made to this equipment not expressly approved by Sennheiser electronic Corp. may void the FCC authorization to operate this equipment.

RF Radiation Exposure Information

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. End users must follow the specific instructions for satisfying RF exposure compliance. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.
